HAMPTON INN & SUITES, BRICKELL

Situated in a 15-story building, the 221-room hotel is larger than the typical Hampton. With a sixth-floor pool, wall murals featuring Miami scenes in some public areas and original art, the hotel is a departure from the universal chain look. Average rates at the new hotel, located just west of Brickell, are expected to hover around \$160. The hotel incorporates several eco-friendly features, including in-room occupancy sensors, low-flow faucets, dual-flush toilets and a 35,000-gallon cistern to harvest rainwater, as well as charging stations for electric vehicles.
